

# VersaDater® Line Dater & Message Stamp

The VersaDater is the only date stamp you will ever need

On it's own the VersaDater is an 8-year date stamp

Snap on the pre-inked impression frame and you now have created a whole new message date stamp

Prints the month, day and year along with your custom copy

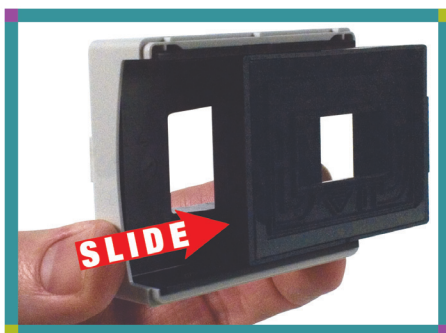

## Unique Special Message Window

Unlike the window on the impression frame™, the window on line dater was designed to be removed so that you can put a special message on your stamp and change that out whenever you like. Mark your territory, promote your brand or inspire yourself with daily messages! It's up to you, make your stamp as personal as you like!

## Easy to Re-ink

**1.** Remove impression frame™ from line dater and slide out impression cartridge from frame as shown.

**2.** Put 2-3 drops of Xstamper® ink in each channel.

**3.** Put 2-3 drops of Xstamper® ink in either reinking hole. Place line dater back in the impression frame™ and allow stamp to sit overnight for best results.
